## ABOUT

Freelance web developer and Coding Instructor for Varsity Tutors with over 7 years' experience in web development following 11 years in education. Always improving by means of collaborating, teaching, and creating content to share with the community. Equipped with a full stack set of skills with an emphasis on JavaScript, TypeScript, and React.

Actively coding daily, working on group projects, freelance gigs, as well as creating content and maintaining open-source repositories. Optimizing the use of technology for educators and businesses with intuitive problem-solving skills and incredible people skills and passion-driven work ethic.

Strong problem-solving skills and a willingness to be flexible and learn new concepts and technologies.

## SKILLS

- JavaScript
- TypeScript
- React
- React Native
- NextJS
- Python
- MaterialUI
- Tailwind CSS
- AWS
- Netlify
- CRUD
- MongoDB + SQL

## PROJECTS

### [Expense Trackers](#)

React Native, JSX, Expo, Expo CLI, iOS, Android. A collection of snippets and commented code to review some fundamental react native concepts and build practical applications to increase efficiency throughout my day. **'Numbers'** and **'Expense Trackers'** are two such apps.

### [Gladis & Co, 2022-current](#)

JS, HTML, CSS, WordPress. Redesigned company website increasing responsiveness and UX. Implemented advanced JS and CSS techniques including overriding existing code to implement server-side rendering for dynamic changes in site.

### [Super Pantry Buddy, 2020](#)

React, Context, MongoDB, Node, ORM, Express, OAuth, Jest, Bulma, Figma. Includes Authorization, State, and testing. Spoonacular API is our main source that fills out the site when queried.

### [A Python Log, 2021](#)

Python, CSS, HTML, JS, Replit, Django, Tkinter, JSON, Illustrator. A full stack blog using Python in the backend. Implemented CRUD so users can post, share, and delete content using HTTP Requests. A mobile-friendly design adds functionality with a responsive UI.
