ABOUT

Freelance web developer and Coding Instructor for Varsity Tutors with over 7 years' experience in web development overlapping 11 years in education. Always improving by means of collaborating, teaching, learning, and creating content to share and give back to the community. Full stack, proven SEO expertise, and active community member.

You will likely find me coding daily and in public, working on group projects, looking for and completing freelance gigs, creating content and maintaining open-source repositories. I'm also driven towards optimizing the use of technology for educators and businesses using my intuitive problem-solving and people skills. Passion-driven work ethic, flexible, open-minded, and eager to learn and share with a new team of developers!

SKILLS

- JavaScript
- TypeScript
- React
- React Native
- NextJS
- Python
- MaterialUI
- Tailwind CSS
- AWS
- Netlify
- CRUD
- MongoDB + SQL

PROJECTS

Expense Trackers

React Native	Expo	iOS	Android
--------------	------	-----	---------

iOS and Android mobile app to keep track of a budget. Features include context to handle state, react-navigation, and custom styling. *Scalable, Responsive, & Mobile-Ready.*

Gladis & Co, 2022-current

WordPress	PHP	HTML	CSS
-----------	-----	------	-----

Redesigned company website increasing responsiveness and UX. Implemented advanced JS and CSS techniques including overriding existing code to implement server-side rendering for dynamic changes in site. *Scalable, Responsive, & Mobile-Ready.*

Super Pantry Buddy, 2020

React	MongoDB	Node	Express
-------	---------	------	---------

Features include OAuth login, CRUD routes to 3rd party API, Bulma framework, react context to handle state. *Scalable, Responsive, & Mobile-Ready.*

LC-HR-CW, 2022

Data Structures	Algorithms	Open Source
-----------------	------------	-------------

Open-source project with MVP in the works. A website built by devs, for devs, with education and learning as a top priority. Utilizing the power of open source contributors brings the most diverse collection of learning tools for coding.
