SUMMARY

As a math and Music major with a passion for technology and video games, I have a natural inclination towards problem-solving and critical thinking. With a SOLID foundation in mathematics and a love for learning, I am always looking for new ways to grow and improve as a developer. I have a strong desire to help others and am driven by the belief that technology can be used to improve people's lives. I have experience in a variety of programming languages and frameworks, including JavaScript, TypeScript, React, React Native, NextJS, Python, MaterialUI, Tailwind CSS, AWS, Vercel, CRUD, and databases such as MongoDB and SQL.
